ICP-3050

Multi-channel Audio Processor

Features and specifications:

- Interconnect with ICP-3051 User-friendly Operation Panel and graphical control software.
- Equipped with internal line broadcasting interface: apply general telephone or telephone exchange and then broadcast with any extension phone.
- Equipped with external line broadcasting interface: fixed line (such as Chunghwa Telecom) can be applied with telephone or mobile phone doing remote-control audio broadcasting.
- Built in with 2-set USB two-way audio decoder: via digital transmission, it can operate background music play, human-voice guidance, broadcasting, recording and intercommunication.
