Q.con

Your best communication software upgrade plan

Q.con (Quickly-connected), a modern video conferencing system solution. It provides an excellent and easy upgrade plan for most popular video communication software such as Skype, Google Hangouts, LINE, QQ etc. Q.con is coupled with BXB's hot selling microphones and cameras, bringing a great sound quality and a convenient image tracking feature to the meetings. It's most popular in the meeting rooms more than 5 people.

Connect Q.con with just a USB cable to a computer

To bring the Q.con online, you need only USB cables to connec to a computer. Simple and fast.

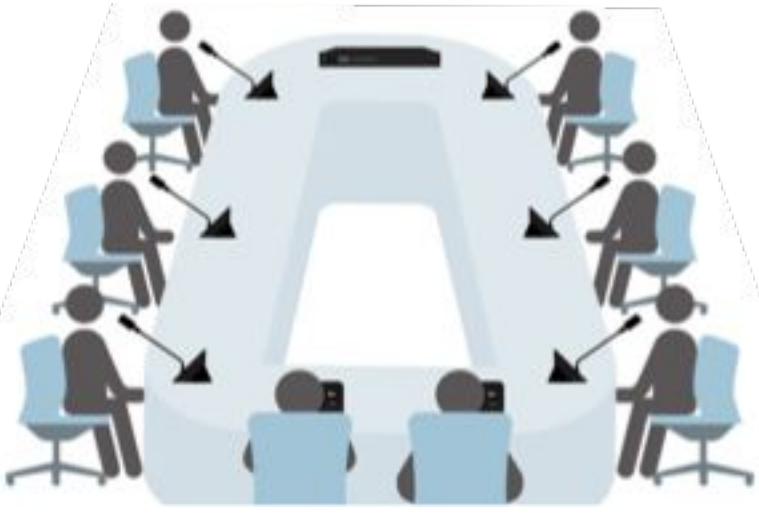

Compatible with your familiar communication software

Compatible with most communication software, including Skype, Google Hangouts, Whatsapp, LINE, QQ, Wechat etc.

Use our app to control the meetings

You can control the entire system by Q.con app, including the volume, the sensitivity of microphones, and the camera directions etc. You don't need an IT guy to do the adjustments.

Better sound quality makes a meeting smooth

This solution comes with BXB microphones, which independently equipped with a DSP chip. This makes sure each attendee can be heard loud and clear.

Make sure you know who's talking

This solution includes a camera that can automatically track the speaker's image and project it on screens. So every participant know who's talking especially when they first met.

Automatic voice activated microphones

BXB microphones can be automatically activated by the human voice. It will not be activated by sounds of claps, feedback, or the voice of other participants. This prevents the meeting being interrupted when someone forgets to turn on the microphone.

Cardioid microphones allows side discussions

BXB microphones can only pick up the human voice right in front of it. This allows participants to have side discussions during the meeting without the fear of being ear-dropped.

Q.con is most suitable for people in following scenarios:

1

Accustomed to using Skype and want to have an upgrade

If you use Skype for conference meeting, Q.con is fully compatible and provides an upgrade plan with higher AV quality.

2

Want to replace the existing conference microphones

Q.con not only provides the original benefits of conference microphones such as sound quality, but also offers an easy way to connect to modern communication software such as Skype.

3

Have external meetings with more than 5 participants

If you have external meetings with more than 5 people, you are very likely to have discussions with people you don't know. Q.con can help to fix this issue.

Q. con Control Unit

QCU-100

- Plug-and-play USB interface: You can connect to PC for software control and audio playing.
- Digital coding: you can set the ID number of each microphone. The ID number can also be changed randomly at any time.
- TCP/IP protocol for internet control: you can use PC or mobile devices to set/change the setting of the controller via network.
- Equipped with 4 sets of RJ45 ports. Each port possesses circuit protection mechanism to make the system safer and more stable.
- One control unit can connect 5 chairmen and 35 delegate units.

Table-top Chairman/ Delegate Unit

FUN-6313/6314

- Equipped with DSP chip: AGC and sensitivity adjustment for each microphone.
- Equipped with OLED display: Gives the operation modes a clear view. When the voltage of microphone is too low, the microphone would auto-off its operation and show the recent voltage value on the display. It helps evaluate system's condition.
- Equipped with digital coding, rather than DIP switch. Each unit's ID number and the identity of chairman/delegate can be set by main control unit or graphical software directly.
- The unit is equipped with white/red/green/orange LED indicator light to represent different operation modes: able to speak/speaking/override/FIFO.
- Chairman unit has the priority to speak and control: operate instant OFF, permanent OFF and temporary OFF.
- Applied with commonly-used Cat-5e cable.
- Minimum space occupied: smallest microphone base in the world (115 X 100 mm) to increase the table using space for attendees.
- Any delegate unit can be set as vice-chairman identity. Vice-chairman can operate "Chairman Priority for Temporary Speaking" mode. Just press speaking button for 1.5 seconds, the original delegate unit would become mute and all the speaking functions would be terminated. If you letting go the speaking button, all the delegate units would recover to the original speaking status.

PTZ USB Camera

HDC-611

- USB3.0 plug & play video output interface
- Full HD 1080p high definition signal output format with a high frame rate of 60 fps
- 5x optical zoom is applicable for medium size conference room.
- Horizontal viewing angle: 70°
- Pan angle from -100° to +100°; tilting angle from -30° to +30°
- Up to 128 preset modes to allow for ease use in all environments

AWS Waterproof Speakers Series

AWS-6502

- 2 way weather-proof speaker.
- ABS cabinet built to handle outdoor conditions.
- High power woofer for open-space listening.
- Wedge shaped cabinet can easily be tucked away.
- Aluminum and brass fitting to prevent rusting or corrosion.
